

## REMARKS

### Restriction requirement

In the Office Action of September 23, 2005 the Examiner asserts, in a restriction requirement, that the present application contains claims directed to two distinct inventions, Invention I (Claims 1-12 and 26-27) and Invention II (13-25).

Applicant requests that the Examiner reconsider the requirement for restriction as discussed below.

Applicant submits that 35 U.S.C. § 121 authorizes, but does not require, the USPTO to restrict an application to one invention if two or more independent and distinct inventions are claimed in one application. In view of the related filed of technology of both inventions and in view of the expenses that would be imposed upon the Applicant by multiple patent applications and multiple patents, it is submitted that restriction requirements should be issued only when absolutely necessary.

Therefore, Applicant submits that the restriction requirement set forth in the Office Action of September 23, 2005 is improper. As such, the Examiner is respectfully requested to withdraw the restriction requirement. However, as required under 35 USC § 121, Applicant provisionally elects Invention I (Claims 1-12 and 26-27).

Additionally, Applicant expects the Examiner to use a consistent test with respect to what matters are obvious and what matters are unobvious throughout the prosecution of this application. Because the Examiner is adopting a particular standard for patentability in this case in terms of the election/restriction requirement, Applicant will expect that the same test be used throughout the prosecution of this application if the Examiner does not withdraw the election/restriction requirement made in the official action.

The traversal of the restriction requirement and the remarks regarding the traversal are being submitted without prejudice. Neither the traversal of the restriction requirement nor the remarks regarding the traversal shall be interpreted as disputing the Examiner's finding that Invention I and Invention II are patentably distinct.

It is submitted that the application is in condition for allowance. Allowance of the application at an early date is solicited.

**Conclusion**

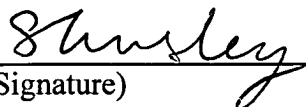

In view of the above, allowance of the pending claims is respectfully solicited.
